Have You Been Missing the KeyNotes?

Since we have been emailing weekly reminders to Adagio users about the [Wednesday Webinar Series](#), we have held off sending the KeyNotes until we have time-sensitive information for you. Please check the [webinar description page](#) for information about all of the current webinars and links to pre-recorded webinars. Note that the Financial Reporter is now at two levels: Getting Started, Intermediate.

Adagio Training Conferences

for Adagio end users

The next Adagio Training Conference is October 20-23 in the Vancouver area.

There are two sessions. Computers will be provided.

- October 20-22 is hands-on training for Adagio Ledger, Receivables, Payables, and BankRec. It is designed for staff with skill levels from new to intermediate.
- October 23 is advanced hands-on training for the Financial Reporter in Adagio Ledger, Adagio FX Standard or Professional. If you've worked (or played) with the financial reporter and want to be able to create reports easier and faster, don't miss this day.

Register: [Adagio Training Conference](#)

Price: \$950 for Ledger, Receivables, Payables, BankRec
\$395 for advanced Financial Reporting

User Groups for Adagio and Plus Users

In Canada this October, a number of local user group meetings have been scheduled for both Adagio users and ACCPAC Plus users. For a complete list of Adagio events this fall, click on [Upcoming Events](#). The user groups scheduled as of this e-newsletter are:

- Halifax – Wednesday, Oct 8 – **HBM Integrated Technology**
- Montreal – Thursday, Oct 9 – **Geneva Financial**
- Ottawa – Friday, Oct 10 – **Westboro Electronics**
- Winnipeg – Tuesday, Oct 21 – **21st Century Systems**
- Edmonton – Wednesday, Oct 22 – **CW Consulting**
- Calgary – Thursday, Oct 23 – **CW Consulting**
- Toronto West – Thursday, Oct 30 – **Micro Logic**

Plus users should attend the user group to consult with current Adagio users and to see how easy it is to move to Adagio. Adagio users should attend to see what's new and to meet with Andrew Bates, the president of Softrak Systems Inc.

Time to Retire Your Windows 98 Workstations

If you are still using Windows 98, do not install any Adagio upgrade or service pack without consulting your dealer. Changes required to improve the performance of Adagio mean we can no longer support the old Windows 98 environment. See [System Requirements](#).

Recent Adagio Upgrades & Service Packs

For details and a complete list, click on [Products | Releases](#)
