

Top Reasons Canadian companies get Adagio® blank cheques

Fully Compliant with Canadian Payment Association Rules for 2007

- Both the blank cheque stock and the Adagio software are compliant with CPA standards

Save Money

- Don't need expensive multi-part forms.
- Don't need expensive preprinted cheque stock.
- Don't need a separate cheque stock for each bank account.

Save Time

- Never need to change cheque stock to print cheques on a different bank.
- Don't need to track cheque numbers on cheque forms since they are just blank paper until laser printed.

Increase Security

- **Anti-Alteration of Payee and Amounts:** The heating element in the laser chemically bonds the laser toner to the paper so that any attempt to change the laser-printed characters on the cheque rips away the actual "Toner Grip Cheque Stock" paper fibers, making the alteration to the security background patterns to be much more obvious.
- **Anti-Photocopying (Rainbow Background):** The two color background is very difficult to photocopy.
- **Anti-Photocopying (Micro-Printed Border):** The line around the border of the cheque is actually "Wellspring Software" printed in very small type and is too small to be photocopied.
- **Anti-Unauthorized Endorsement:** On the back of the cheque, there's an area for endorsement information as well as security feature warnings.
- **Anti-Theft of Preprinted Cheques:** All cheques are just blank paper until the cheque is laser printed.

Pricing & Shipping

Blank Cheques	Cdn
1,000 cheques	\$80.00/1,000
