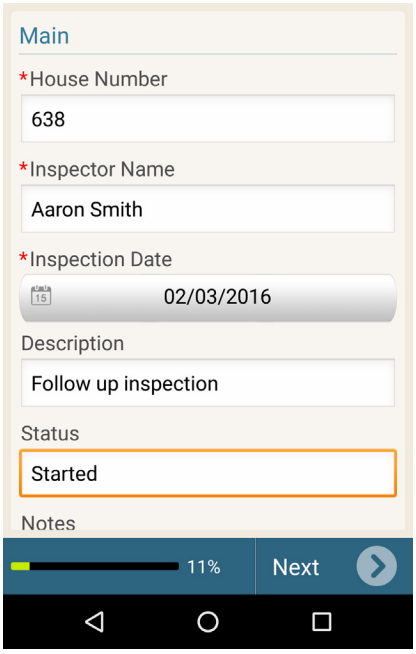
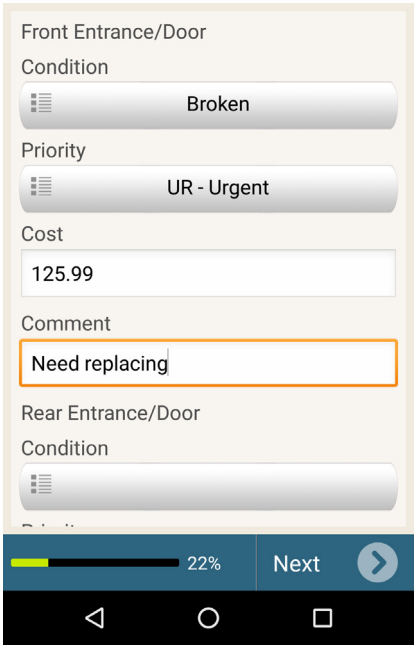
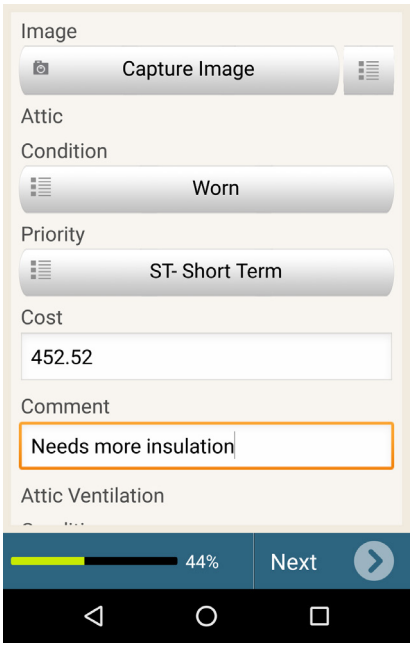
Mobile Inspection App

Integrated with ASAP Housing Software







Device Compatibility

- Available for iPad, iPhone, Android Phones / Android Tablets, BlackBerry, & Windows Mobile.

Inspection Form

- Save time & paper by completing inspection forms on mobile devices
- Mobile Inspections sync directly with ASAP Software, saving time on data entry
- The mobile application runs offline, syncing with the ASAP desktop software after returning to Wi-Fi or cellular network connectivity

Picture Management

- Take pictures on mobile devices, linking them to houses in ASAP desktop software
- Multiple pictures can be linked to each inspection

Contact an ASAP Representative to find out more and get the mobile application installed today.
