Benefits of ASAP Software

No Hidden Costs

- With the Technology Assurance Plan (T.A.P.), there are no unexpected invoices. The annual T.A.P. covers ALL software support for trained ASAP Users and updates for the fiscal year.
- Managers can accurately predict, plan and adhere to their software budgets

Reliable, Stable Software

- Every update & new feature is designed & thoroughly tested by a skilled development team

Complete Financial System

- Complete internal bank reconciliation procedure
- Payment options include cheques, requisitions, direct deposit, pay cards & purchase orders

Accurate Reporting

- ASAP Software prints all required & supplementary INAC Reports
- Hundreds of unique reports are available to print including budgets, financial statements, payables, receivables, demographics & graphs
- The report creator tool allows users to generate additional custom reports

Network with Other ASAP Software Modules

- The ASAP Software Suite enables connectivity between offices with shared databases
- User permissions ensure privacy of sensitive information between departments
- Available Modules include: Membership, Housing, Education & Training, Post-Secondary, Income Assistance
- Additional modules are currently under development to grow the ASAP Suite
- All ASAP Software connects to the major financial software programs including Adagio

Rest Assured that ASAP Software is Here to Stay

- Ferrus Computers Services has developed ASAP Software for over twenty years and will continue to do so for future years to come.
- Legacy planning is in place to ensure the continuing, long term support of ASAP Software.
